

OISC OBJECTIVES

Use optics as a vehicle to make science and technology interesting and accessible to people in Southern California.

Bring optics demonstrations and follow-up classroom hands-on materials to K-12 students and teachers in Southern California.

Encourage students to study optics in college and help provide pre-undergraduate experiences with optics.

Provide trained professionals to companies that use optics in their products and services.

Work with Southern California companies to effectively and productively implement optics in their products and services.

The Optics Institute of Southern California is a project of Community Partners, a 501(C)(3) tax exempt organization. Contributions are tax deductible to the extent permitted by law.
